Dear Friends and Colleagues,

On behalf of the Turkish Chemical Society, we cordially invite you to join us for the Euroanalysis XX Conference to be held from September 1st to 5th, 2019 in our beautiful city of Istanbul, Turkey. The meeting will be hosted by the Analytical Chemistry Division of the Turkish Chemical Society and the local organizers Ankara University and Istanbul University in collaboration with Division of Analytical Chemistry of European Association for Chemical and Molecular Sciences (DAC-EuChemS).

Euroanalysis XX will cover all aspects where analytical chemistry plays a role including fundamental and applied sciences. It will offer plenary and keynote presentations on cutting-edge topics by internationally renowned leaders of the field, followed by contributed talks and poster presentations to stimulate interdisciplinary discussions. A Young Researcher's Session will be organized to provide opportunities for and encourage Ph.D. students and postdocs to share their findings.

It has long been said that Istanbul is a bridge between Europe and Asia and now we can expand that to all continents as we are pleased to welcome premier analytical chemists and other chemistry related scientists from all over the world to enrich our knowledge with their lectures and presentations.

The venue of Euroanalysis 2019 will be a large complex of auditoria in the main campus of Istanbul University which is the oldest university of Turkey. It is favorably located in the heart of the city, an area very close to the historical places and very well served by road links and public transport.

In addition to the scientific program, exciting social events are being planned. There are few cities in the world that can be rival to the splendor of Istanbul. Amazing sights, tranquil places off the beaten trail, world renowned cuisine and a very rich cultural tradition await you. We hope to give all participants a chance to experience Turkish history and culture along with traditional Turkish hospitality. We suggest that you spend a few extra days in order to really experience the true spirit of Istanbul.

To keep up-to-date with the conference, please bookmark the web site: www.euroanalysis2019.com

We look forward to your participation in Euroanalysis XX in September 2019 and welcoming you in Istanbul.

Yours Sincerely,

GENERAL INFORMATION

Congress Destination

ISTANBUL

Area: 5.712 km²

Population: 10.018.735

Istanbul, historically known as Byzantium and Constantinople, is the largest city of Turkey. Istanbul metropolitan province had 13.26 million people living in it as of December, 2010, which is 18% of Turkey's population and the 3rd largest metropolitan area in Europe (if its Asian half is counted) after London and Moscow. Istanbul is a megacity, as well as the cultural, economic, and financial centre of Turkey. It is located on the Bosphorus Strait and encompasses the natural harbour known as the Golden Horn, in the northwest of the country. It extends both on the European (Thrace) and on the Asian (Anatolia) sides of the Bosphorus, and is thereby the only metropolis in the world that is situated on two continents. Istanbul is a designated alpha world city.

During its long history, Istanbul has served as the capital of the Roman Empire (330–395), the Eastern Roman (Byzantine) Empire (395–1204 and 1261–1453), the Latin Empire (1204–1261), and the Ottoman Empire (1453–1922). When the Republic of Turkey was proclaimed on 29 October 1923, Ankara, which had previously served as the headquarters of the Turkish national movement during the Turkish War of Independence, was chosen as the new Turkish State's capital. Istanbul was chosen as a joint European Capital of Culture for 2010 and the European Capital of Sports for 2012. Istanbul is currently bidding to host the 2020 Summer Olympics. The historic areas of the city were added to the UNESCO World Heritage List in 1985.
